WEBINAR FOR CONSUMERS & CARERS

Reproductive health & kidney disease

Join us for an informative and engaging webinar exploring the connection between reproductive health and kidney disease!

Tuesday 1 December 2026

Reproductive health and kidney disease is about much more than pregnancy. From fertility and family planning to pregnancy, male reproductive health, menopause and beyond, there are many ways kidney health and reproductive health intersect throughout life.

This webinar is specifically for consumers and carers: whether you are living with kidney disease or supporting someone who is, this webinar is for you.

We'll be bringing together clinical experts and consumer panellists to explore the issues that matter, share experiences and answer your questions.

Have a question you'd like our panel to discuss?

You'll have the opportunity to submit an **anonymous question** when you register. This is a great chance to raise something you've always wanted to know, hear different perspectives and help shape the conversation.

Please note: specific medical advice cannot be given during this webinar.

Times across Australia (1 hour)

State / Territory	Start	End
WA	4:00 pm	5:00 pm
QLD	6:00 pm	7:00 pm
NT	6:00 pm	7:00 pm
